Note to Clinic Staff/Doctor: Everything written on this page will be reviewed by recipients. If donor is not recommended, or if donor's stimulation was inadequate, please explain possible causes/reasons.

Note to Recipients: These are the results of a prior cycle for this donor. Many factors may influence the results (such as sperm quality and uterine abnormalities). These results are for your information in choosing a donor and in no way should be taken as a guarantee of similar results for future cycles.
